NEET UG COMMAND CARD

Where the 720 actually comes from, why Biology decides your rank, the +4/-1 discipline that separates 550 from 650, and the Physics formulae you cannot afford to look up. From the classroom behind 50+ MBBS admissions.

KNOW THE MACHINE

Where The 720 Comes From

Total	180 questions · 720 marks
Physics	45 questions · 180 marks
Chemistry	45 questions · 180 marks
Biology (Botany + Zoology)	90 questions · 360 marks
Marking	+4 for correct · -1 for wrong
Source	NCERT-dominant, Class 11 + 12 syllabus

THE SINGLE MOST IMPORTANT FACT ON THIS PAGE

Biology is 360 of 720 – half the exam – and its questions map almost line-for-line onto NCERT, including the diagrams and the small print under them. Read NCERT Biology twice before you open any reference book.

THE DISCIPLINE

+4 / -1 Changes Everything

- **Blind guessing is mathematically negative.**

Four options, 25% accuracy: four guesses earn +4 once and lose -1 three times. Net zero, with time burnt. Guessing only becomes profitable once you can eliminate options.

- **Bank the certain, flag the doubtful.**

First pass: answer only what you know cold. Second pass: return to the flagged ones with time in hand and a calmer head.

- **Order of attempt is a scoring strategy.**

Most students start with Physics and lose their nerve. Start where you are strongest – usually Biology – bank the marks, then move on with confidence.

B I O L O G Y

High-Yield NCERT Units

Class 11 – Diversity

Living World, Biological Classification, Plant & Animal Kingdom

Class 11 – Structure

Morphology & Anatomy of Plants, Animal Tissues, Cell, Biomolecules

Class 11 – Physiology

Photosynthesis, Respiration, Plant Growth, Human Physiology

Class 12 – Reproduction

Sexual Reproduction in Plants, Human Reproduction, Health

Class 12 – Genetics

Inheritance, Molecular Basis of Inheritance, Evolution

Class 12 – Bio & Ecology

Biotechnology & Applications, Ecosystem, Biodiversity

Formulae You Must Not Look Up

KINEMATICS

$$v = u + at$$

DISPLACEMENT

$$s = ut + (1/2)at^2$$

VELOCITY-POSITION

$$v^2 = u^2 + 2as$$

NEWTON'S SECOND LAW

$$F = ma$$

WORK / ENERGY

$$W = F s \cos(\theta), KE = (1/2)mv^2$$

MOMENTUM

$$p = mv$$

COULOMB'S LAW

$$F = k q_1 q_2 / r^2$$

OHM'S LAW

$$V = IR$$

LENS FORMULA

$$1/v - 1/u = 1/f$$

MAGNIFICATION

$$m = v / u$$

YOU HAVE THE MAP

Now Get The Guide.

This sheet is the free part. The rest – weekly tests, doubt-clearing the day a doubt appears, mock analysis, and a plan built around your calendar – is what we do in the classroom, in batches of never more than fifteen.

For NEET specifically: NCERT line-by-line Biology with diagram drills, weekly NTA-pattern mocks, and forensic error analysis after every test.

FREE 1-ON-1 STRATEGY SESSION

A short diagnostic, an honest read of where you stand, and a written plan – target, timeline, weekly schedule. You keep the plan whether or not you join us.
