

VISION SUCCESS EDUCATIONAL INSTITUTE

UNA, HIMACHAL PRADESH

A PROPOSAL FOR YOUR SCHOOL

CAREER CLARITY, BEFORE IT'S LATE.

A free 40-minute career-awareness seminar for your students – no fees, no sales pitch, no obligation. Just the information most students in Himachal receive two years too late.

THE REASON WE ARE WRITING

Your Students Are Deciding Blind.

By the time a student reaches Class 12, the most consequential decisions of their life have usually already been made – often by default, on incomplete information, and rarely with any real map of what exists beyond the district.

Most students in Una know three roads: engineering, medicine, and a government job. Those are excellent roads. But they are three of perhaps thirty, and a student who has never heard of the other twenty-seven cannot be said to have chosen.

A child who does not know an option exists has not rejected it. They were simply never told.

- **Information reaches this district late.**

The SAT, the NDA's real mark structure, HP TET eligibility, IMU CET, scholarship pathways – all of it is public and free, and almost none of it arrives in time to be acted on.

- **The cost of a late decision is a whole year.**

A student who discovers in Class 12 that they needed Physics, or a two-year runway, or an exam window that has closed, pays for that gap in years – not marks.

- **Nobody is at fault.**

Teachers are stretched, parents advise from their own experience, and students cannot research what they have never heard named. It is a gap in information, not in effort.

- **And the information itself is free.**

Every exam pattern, every eligibility rule, every scholarship deadline referred to in this document is published openly by the College Board, the UPSC and the NTA. None of it is privileged. It is simply not evenly distributed – and that is a solvable problem.

This is the entire reason we are asking for forty minutes.

WHAT WE ARE OFFERING

One Free Session. Nothing Sold.

We would like to run a single 40-minute career-awareness seminar for your students, at no cost to the school or to any family, at a time that suits your timetable.

Duration	40 minutes – one period
Audience	Class 9, 10, 11 or 12 (separate script for each)
Cost to school	Zero. No fee, no sponsorship, no expenses
Cost to families	Zero. Nothing is sold to students
What we need	A hall or classroom, and a projector if available
What we bring	The session, printed take-home material, our own equipment

We do not pitch our institute to students. We give them the map, and we leave.

- **The session is class-specific.**

A Class 9 student needs a different conversation from a Class 12 student. We have written four separate scripts so each year hears what is actually useful to them right now.

- **Every student leaves with something in hand.**

A printed exam-pattern card for their stream – official structures, marking schemes, and timelines. Useful whether or not they ever contact us again.

- **You are welcome to sit in.**

Any teacher or the principal may attend the entire session. We would prefer it.

- **You may read the script before we arrive.**

The full 40-minute script is written down, minute by minute, and we will send it to you in advance on request. Nothing will be said in front of your students that you have not had the chance to read first.

- **Nothing is collected from students.**

We do not take phone numbers, we do not circulate forms, and we do not ask anyone to sign anything. Students who want to reach us afterwards can find the website on their card.

Ask us for the script. It is the fastest way to judge whether this is worth a period.

WHAT STUDENTS WALK AWAY WITH

The Map Nobody Gave Them.

- **Every route that exists after Class 12.**

Engineering and medicine, yes – but also the defence academies, the merchant navy, the teaching services, design, law, liberal arts, and studying abroad on scholarship. Named, explained, with the entry exam and the timeline for each.

- **The real structure of the exams they will face.**

That NDA is 300 marks of Mathematics but 600 of General Ability. That NEET is 720 marks of which Biology alone is 360. That JEE Main runs twice a year and only the better score counts. Facts that change how a student prepares, delivered free.

- **That studying abroad is not only for the wealthy.**

The SAT is written by lakhs of students each year, is accepted by 4,000+ universities, and carries substantial merit scholarships. Most students here have never had it explained.

- **A method for the year ahead.**

How to build a study routine that survives a bad week – the practical, unglamorous discipline that separates students who finish from students who start.

Not one minute of the session asks a student to enrol anywhere.

The take-home card is ours, and it carries our crest – that is the only advertising in the room, and it is on the back of something genuinely useful.

Every fact quoted in the session comes from the official exam body. We will cite them on request.

WHO WILL BE STANDING IN FRONT OF THEM

The People, And The Record.

Founded & led by	An NIT Hamirpur alumnus
SAT mentor	Scored 1540/1600 – top 1% worldwide; studied in Canada
Defence record	7+ students now serving as officers
Medical record	50+ MBBS admissions
Teaching since	13+ years in Una
Batch size	Never more than 15 students

We mention this for one reason only: a school is right to ask who is being given forty minutes with its students. Everything above is verifiable, and we are glad to be asked.

- **We teach the whole spread.**

NDA, JEE, NEET, CUET, Merchant Navy, HP TET and government exams, Class 9-12 boards, and the SAT and IELTS for students aiming abroad.

- **We are the first SAT desk in the district.**

Which is precisely why students here have never had the option explained to them. A student in Una and a student in Delhi sit the identical paper – the only difference has been who was told it existed.

- **We are a small institute, and we say so.**

Batches are capped at fifteen because that is the size at which a teacher still knows which chapter each student is stuck on. We are not the largest coaching centre in Himachal and we have never claimed to be.

- **You can verify all of it before you decide.**

Call us, visit the centre near the Old Bus Stand, or speak to families already with us. We would rather be checked than believed.

Thirteen years in the same town. You cannot survive that long here on marketing alone.

We have deliberately not printed any student's name or photograph in this document.

WHAT THE SCHOOL GAINS

Reasons To Say Yes.

- **Career guidance your timetable cannot fit.**

Most schools want to run career sessions and simply have no period to spare and no external speaker to call. This costs you one period and nothing else.

- **Better-informed board students.**

A Class 10 student who understands what stream selection actually decides makes a better choice – and better choices show up in your board results two years later.

- **Something to tell parents.**

"We brought in an external career-awareness session for your child, free of charge." It is a genuinely good line at a parent meeting, and it is true.

- **Zero risk.**

No money changes hands. Nothing is sold to students. A teacher is present throughout. If the session is not what we described, you never have to invite us back.

- **A written summary afterwards.**

We send the school a short note on what was covered and what the students asked about – which is often the most useful part, because their questions reveal what the year group is actually worried about.

The only thing we ask for is forty minutes and the benefit of the doubt.

If it does not go well, you simply do not invite us back. That is the whole downside.

PRACTICALITIES

How It Would Work.

- | | |
|---------------|---|
| Step 1 | You tell us a date, a class, and a time |
| Step 2 | We share the exact script in advance, if you wish |
| Step 3 | We arrive 20 minutes early and set up |
| Step 4 | 40-minute session, with a teacher present |
| Step 5 | Printed material distributed; we leave on time |
| Step 6 | A short written summary sent to the school after |

- **We will work around your calendar.**

Before or after board exams, during a career week, in the last period, on a Saturday – whatever disrupts teaching least.

- **Multiple classes in one visit.**

If it suits you, we can run back-to-back sessions for different years on the same day, each with its own script.

- **We are happy to be checked first.**

Speak to us, read the script, visit our centre near the Old Bus Stand. Any of it.

- **A hall is preferred; a classroom is fine.**

The session works in a hall of three hundred or a room of thirty. A projector helps but is not required – the script is written to work without one, because we have learned not to depend on a school's electricity on the day.

- **Language.**

Delivered in Hindi and English together, the way students in Una actually speak, so nothing is lost to the back rows.

- **Repeat visits are welcome, never demanded.**

Some schools invite us once a year for their Class 10 stream-selection week. Others invite us once and never again. Both are completely acceptable to us.

We will fit around your calendar completely. You should not have to move a single class for us.

One message with a possible date is genuinely all that is required to begin.

THE ASK

One Period. One Date.

If this is of interest, a single message with a possible date is all that is needed. We will handle the rest and confirm everything in writing.

Every student in your school will make these decisions anyway. The only question is whether they make them with the information, or without it.
